MASTER SERIES®

Confident smiles ahead

Wearing braces is simply part of the path to getting the smile you deserve. That path is even smoother with Master Series. Their unique design and leading edge technology keeps your comfort and your orthodontist's treatment goals in mind, making it easier to straighten your teeth in the quickest and easiest way possible.

So go ahead and smile!

Why Master Series?

- Patented technology gives your orthodontist precise control over how your teeth are moved into place
- Smooth, rounded edges are less irritating against your lips and cheeks
- Dozens of ligature colors allow you to give your Master Series braces a personal touch

Remember, you and your orthodontist are both working towards the same goal – your ideal smile! Just as you trust your orthodontist to straighten your teeth, they are trusting Master Series to help them do it right.

And that's something to smile about!
